

SUCRE

Our wine list is a story of immigration. Just like the Italians, French and Spanish who came to Argentina to swap secrets with a new land, it makes the trip from Old World to New. Tracing the mingling of influences, and letting wines with European roots live next to bottles that are purely South American in origin.

The first grapes on South American soil were Listán Prieto and Muscatel de Alexandre, planted by travelling Jesuits on their way down the Andes. In 1566, a Chilean Friar called Juan Cedron crossed the mountains and established a vineyard in Argentina. Over the next 300 years, hoisted on the shoulders of the portenos who carried products on and off the ships, these vines grew (and grew and grew) all the way to Patagonia in the far South. In the 19th century, new arrivals from Italy, Spain and France brought an abundance of new grapes that reinvented themselves in the high altitudes and southern latitudes of the Andes.

THE CRIOLLAS COLLECTION

The first vines of Listán Prieto and Muscatel de Alexandre have now grown into varieties that are native to Argentina - known as The Criollas. For centuries, it was the wine of the working family. But recently, a new generation of makers has sought to bring them to an international audience. We are proud to be the first to put them on our menu.

THE CRIOLLA SELECTION / ARGENTINA

750ML

The first vines of Listán Prieto and Muscatel de Alexandre have now grown into varieties that are native to Argentina - known as The Criollas. For centuries, it was the wine of the working family. But recently, a new generation of winemakers have sought to bring them to an international audience. Some of these wines are 'field blends', and the origin of some grapes are yet to be identified. These wines represent a fascinating peak into the long history of Argentine viticulture.

WHITE

505 202Recoleta 'Pedro Blanco' Pedro Gimenez | East Mendoza 41
